

CD Manual

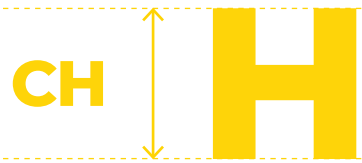

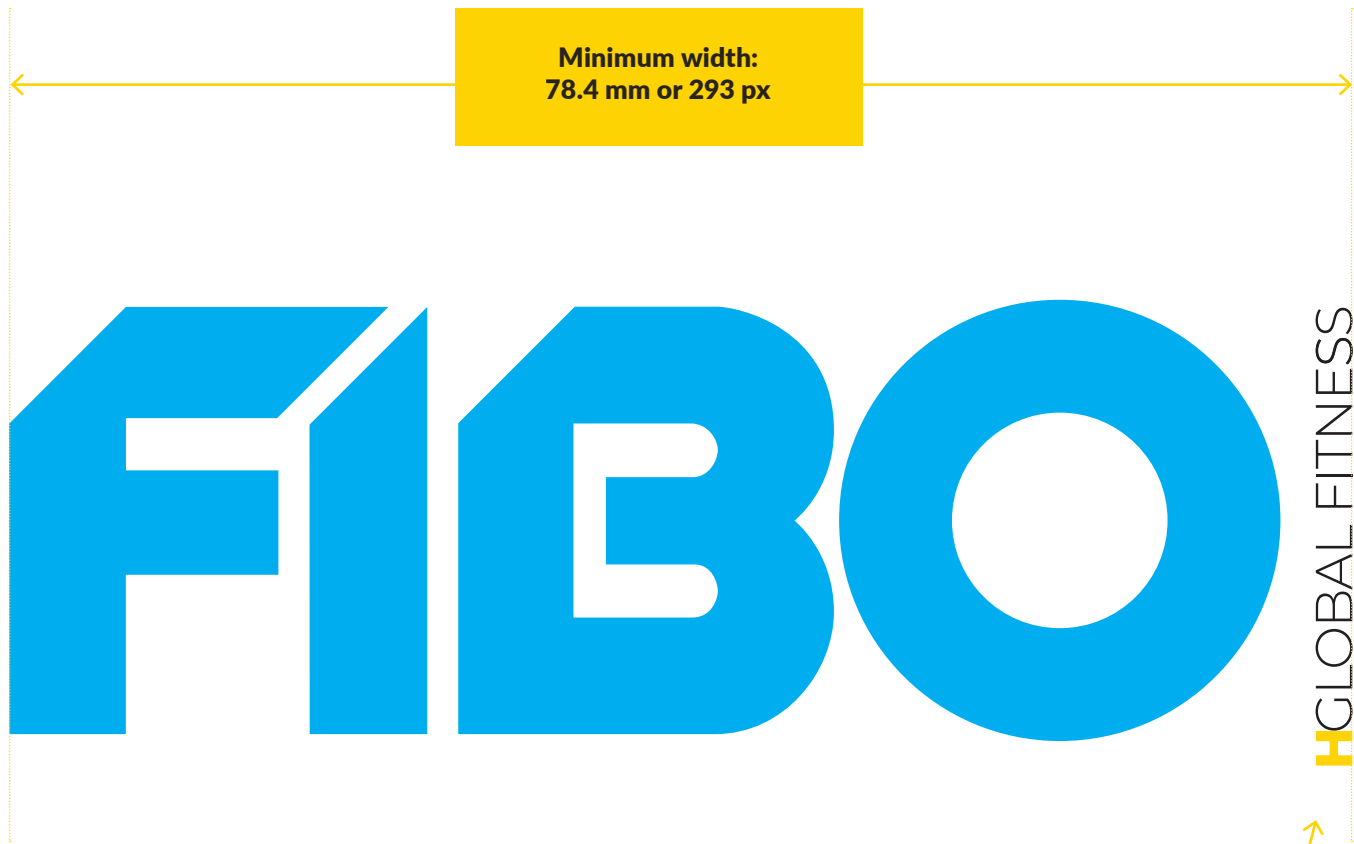

FIBO

GLOBAL FITNESS

For a strong and healthy society.

THE FIBO LOGO

Logo with vertical and horizontal tagline ›GLOBAL FITNESS‹

Smallest appropriate use of the logo: The cap height (CH) of the smallest lettering within the FIBO logo should not be less than 6 pt (2.117 mm) in printed documents and 8 px in digital formats.

The tagline ›Global Fitness‹ is the same size in both applications and it clearly shows that: **For very small applications only the right-hand logo is suitable.**

Which logo on which background?

Regardless of the context in which our FIBO logo appears, it must always be ensured that its **legibility is optimally safeguarded.**
